**Subject:** RE: History of Mining in the Black Hills - time line for draft EJ analysis

The EJ team is hoping to have a first draft completed before April 2, the date of the briefing for Suzanne and Darcy. I was going to check in with Bill on Tuesday so see where he is in the process. Jean Belille is getting "realigned" in mid-April so we were hoping to have the document completed before she moves on.

Ok thanks. Assuming you don't need his product and the maps in the near future, I may check in with him to ensure that his permitting work remains a priority.

I talked to Lynne and she says the workload is not overwhelming and she still has time to do the other work she needs to get done. We won't need a check-in meeting after all.

Hi Valois: I know Bill is working on the above to support your work on DB. I learned from Lynne today that he has asked her to do some mapping to support what he is drafting. I just wanted you to be aware of this and to consider checking in with him or Lynne on his request. From what Lynne said today, this mapping may be fairly time consuming so I wanted to make sure her efforts/time were commensurate with your expectations.

She is also working on rearranging the BA for ESA in response to Lucita's general comments. I told her I would be drafting a new timeframe to send to Fish updating the milestones we sent them before the shutdown.

Thanks,
